Craven Cottage Ground Re-Development - Important Information

We look forward to welcoming your supporters to Craven Cottage for our fixture. We are currently undertaking the re-development of the Riverside Stand. The re-development is scheduled to take two seasons, with the new Riverside Stand due to open in 2021. During this time Craven Cottage will operate with three stands.

As such the stadium operation is different from previous years, please find important information about this to share with your supporters below.

Putney End

Supporters are reminded that whilst three sides of the ground will be in operation during the Riverside Stand works, the Putney End will have dedicated blocks for home and away supporters. **There is no longer a mixed/neutral section at Craven Cottage.**

Whilst the Putney End concourse area will be mixed, blocks P1, P2, P3 & P4 are designated home seating areas only. **P5 & P6 is the designated away allocation.**

There will be an appropriate security presence in the Putney End for each game to manage Home and Away Fans sharing facilities. This will be based upon consultation between the club, police and relevant local authorities.

There should not be any away supporters in any of the home seating areas inside the ground. Away supporters identified in home areas will be ejected.

Persistent Standing

The Club enforces a policy against persistent standing. Persistent standing is not permitted at Craven Cottage. We understand that fans may stand during exciting moments in the game, but respectfully ask that all supporters make every effort to remain seated during play. This applies in all home and away stands.

Persistent standing impedes the view of fellow fans, particularly senior supporters, those with disabilities/access needs and younger children, and can lessen their enjoyment of the game.

Stairs, gangways and vomitories must be kept clear.
